Ankur Tikoo

Software Engineer

👤 Profile

As a Front-End Developer, I have a proven track record of designing and implementing responsive and user-friendly web and mobile applications using cutting-edge technologies such as React Native, React, and JS. With a passion for creating exceptional user experiences, I specialize in building high-quality, scalable, and dynamic front-end solutions that have resulted in increased user engagement and conversions for my clients.

💼 Employment History

Software Engineer at Impelsys.Pvt.ltd, Bengaluru

August 2022 — Present

- As a Front-End Developer in React Native, my primary responsibility was to create an intuitive and visually appealing user interface for a custom mobile application.
- This involved designing and implementing various UI elements such as buttons, forms, menus, and navigation components while ensuring that they were optimized for performance and responsiveness.
- I worked closely with the design team to ensure that the application's UI aligned with the client's branding and user experience guidelines.
- In addition, I was responsible for conducting user testing and making iterative improvements to the UI based on user feedback. Through my expertise in React Native and design principles, I was able to successfully create a custom app that provided an engaging and seamless user experience.

UX/UI Designer at Iniesta Webtech Solutions, Remote

August 2021 — September 2021

- Ensured that the visions of the director and designer were carried out through production.
- Assisted the lead designer with day-to-day tasks to ensure organization and productivity.
- Handled much of the communication between clients and the lead Graphic Designer.

🎓 Education
